A close-up photograph of a person's hands using a laptop and a mouse. The laptop screen is a solid pink color. The person is wearing a blue and white striped shirt. The background is blurred, showing other people and equipment in what appears to be a computer lab or office setting.

**Digital Skills
underpin a
more open and
transparent
research life
cycle.**

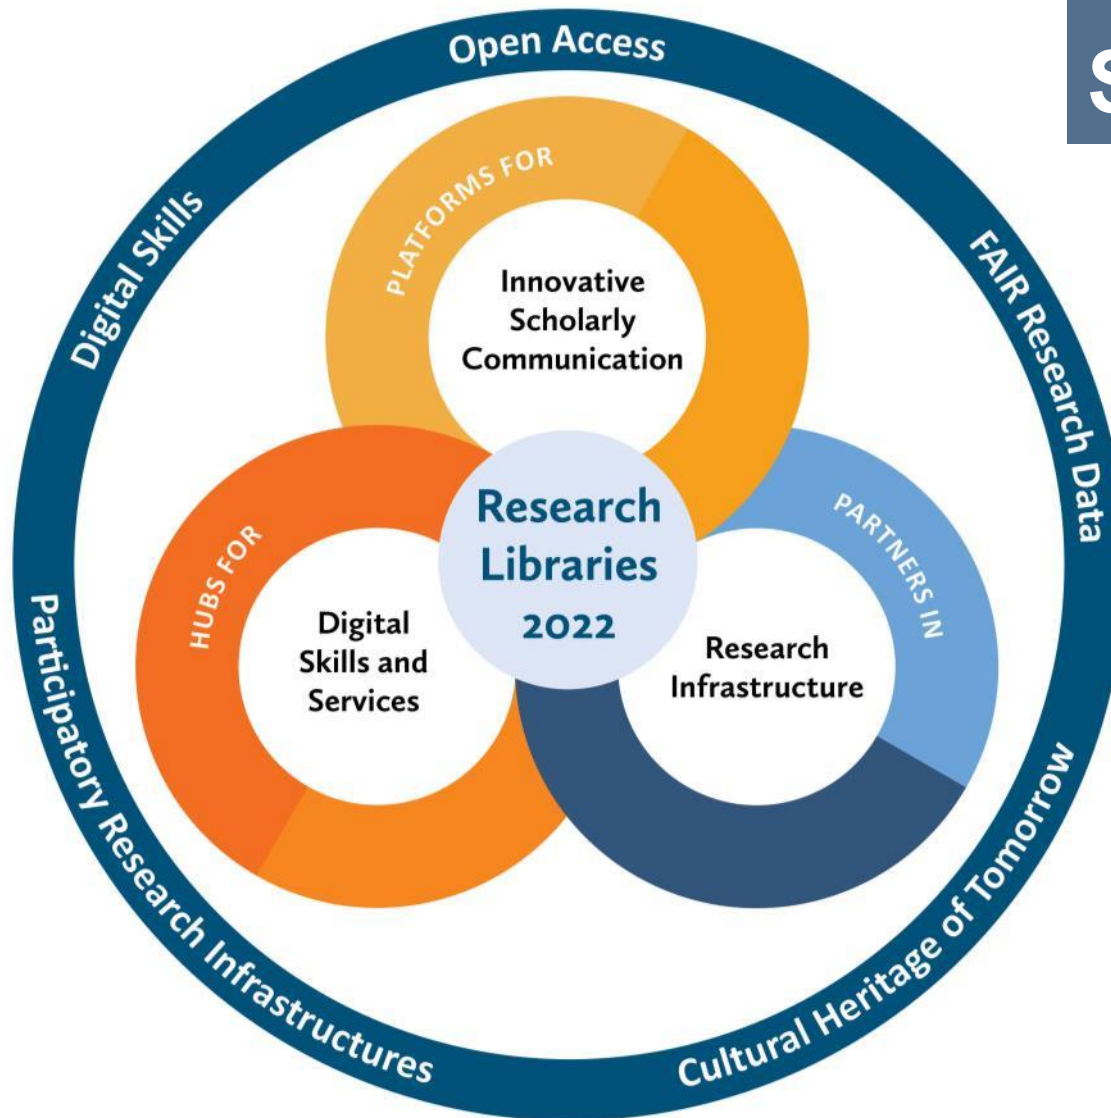

**Research
Infrastructure is
participatory,
tailored and
scaled to the
needs of the
diverse
disciplines.**

A large, ornate dome with a central skylight and intricate stained glass patterns. The dome is composed of a grid of square panels, each containing a circular motif. The central skylight is a large, circular opening with a scalloped, scale-like pattern. The entire dome is illuminated from within, creating a warm, golden glow. The background is a dark blue gradient.

Tomorrow's
cultural
heritage is built
on today's
digital
information.

New challenges,
new working
groups

Digital skills of
staff and
researchers

- **Define the new services** needed for **students** and **researchers**
- Define new **skills** needed to provide these services
- **Assessment and evaluation of success** of new services
- **Define which old services could be disengaged**

New challenges,
new working
groups

Service portfolio
transformation

- **Changing the service development philosophy**
- Foster service development philosophy
- Based on **user-centred design**
- Share best practices on **agile development** and **user engagement**

New challenges,
new working
groups

Innovative peer-
review

- **Investigate the landscape** and the role of libraries
- **Analyse options:** Open peer review, cascade review, portable peer-review...

New challenges, new working groups

Citizen Science

- Stimulating **citizen science** through **outreach**
- Development of **services.**

New challenges,
new working
groups

Information ethics

- **Information ethics:**
- Libraries need to **engage in and advocate** for development of information ethics in the interests of the research community.

New challenges,
new working
groups

Text & Data Mining

- Develop **best practice** in supporting TDM e.g. licencing, tools, data storage, visualisation
- Cooperate with **research infrastructures** which enable your researchers to perform TDM
- Collect TDM **methods**
- Create **educational programs** for researchers about TDM

Join A Group

All staff in LIBER libraries are welcome .

- Learn from others
- Share your professional knowledge
- Work together for a stronger voice

A portrait of Mijke Jetten, a woman with long dark hair and bangs, wearing a blue and red striped top and a blue lanyard with a logo. The background is a wooden wall with a window.

“My field is **Research Data Management**, where **everybody is trying to find the right way** but we’re not aware of what other people are actually doing.

All universities and libraries have to talk to researchers and learn more about the same issues. This is something that **LIBER can help with** and we can profit from.”

-Mijke Jetten, Research Data Management Working Group Member

Activities

International Projects

30 LIBER Libraries are active in projects in which LIBER also participates.

Project participation makes LIBER and our libraries more visible at a European and international level on important topics such as Copyright, TDM and Open Access.

Advocacy

Speaking up
for libraries in
Brussels:
Copyright,
Open Access,
RDM,
Infrastructure.

A woman with short blonde hair is speaking into a microphone at a conference table. She is wearing a light blue blazer and an orange name tag that reads "ASTOR | VISTEUR" and "21/06/2017". The background is blurred, showing other people at the table.

Limitations and Exceptions in EU Copyright Law for Libraries, Educational and Research Establishments: A Basic Guide

LIBER LIBER

TDM EXCEPTION

FOUR ESSENTIAL POINTS FOR COPYRIGHT REFORM

On behalf of our 400+ European research libraries, LIBER is calling for four essential points to be included in any Text and Data Mining (TDM) Exception proposed by the European Commission as part of its copyright overhaul for the Digital Single Market. These points must be addressed if a TDM Exception is to be effective for Europe's research community.

- 
1. MAKE THE TDM EXCEPTION MANDATORY & NON-OVERRIDABLE
 Such provisions are already included in the Commission's proposal (Article 3, pa and pi) and in the draft JURI report. We welcome this approach. The Commission's proposal, Article 18(1), allows rightsholders to apply measures to ensure the security and integrity of the networks and databases. A clarification is needed that technical measures may not be used to prevent beneficiaries from exercising their rights under an exception, or to impose unreasonable limitations on how TDM is performed.
- 
2. INCLUDE LIBRARIES & ALL PERSONS WITH LAWFUL ACCESS TO CONTENT AS BENEFICIARIES
 The beneficiaries of the TDM exception should be extended to include all 'persons' with lawful access to as to benefit citizen science, businesses, the research community, journalism and other sectors of society and the economy. The right to read should be the right to mine.
- 
3. ALLOW COMMERCIAL & NON-COMMERCIAL USES, WITHOUT COMPENSATION
 Since TDM is only used to extract facts and data, which are not copyrightable, there is no reason to limit TDM to non-commercial purposes. The copy of the individual focused on setting the facts and figures in a larger context, and drawing conclusions from this work.
 In addition, it should be noted that research funders such as the European Commission under the Horizon programme aim for commercial impact in research. Research supports innovation which, by definition, is something that has commercial use.
- 4. PERMIT SAFE STORAGE OF COPIES MADE BY TDM**
 It is important for research funders to ensure that research data is preserved.

LIBER

Policy Development

Sharing best practices to help everyone working within the research library profession.

<h2>5</h2> <p>OPEN ACCESS PRINCIPLES for NEGOTIATIONS WITH PUBLISHERS</p>	<h2>1</h2> <p>LICENSING & OPEN ACCESS GO HAND-IN-HAND</p> 	<h2>2</h2> <p>NO OPEN ACCESS, NO PRICE INCREASE</p> 	
<h2>3</h2> <p>TRANSPARENCY FOR LICENSING DEALS: NO NON-DISCLOSURE</p> 	<h2>4</h2> <p>KEEP ACCESS SUSTAINABLE</p> 	<h2>5</h2> <p>USAGE REPORTS SHOULD INCLUDE OPEN ACCESS</p> 	

• “LIBER is offering a lot of services which create an **orientation** for those institutions that need it. **LIBER is like a star** we look at: if we need some light, then we can ask them.”

-Paolo Budroni, Vienna University Library

International Alignment & Coordination

These are just some of the organisations with which we work.
